

Line pulls from 2-44 tonnes

We make standard winches as well as customer specified modifications. Sometimes including all additional winch equipment – everything between PTO and rope end. Our winches are mostly automatically braked and permanently greased having no oil bath. From 10 tons pull upwards we most often supply automatic 2-speed winches.

Sepmatic H60
Planetary Gear Winch
Line pull on bottom rope layer: 60-70 kN
Rope length: 30-40 m

Sepmatic H100F
Planetary Gear Winch
Line pull on bottom rope layer: 100-120 kN
Rope length: 60 m

Sepmatic H150
Planetary Gear Winch
Line pull on bottom rope layer: 150-250 kN
Rope length: 60-80 m

Sepmatic H200
Planetary Gear Winch
Line pull on bottom rope layer: 200-240 kN
Rope length: 60 m

Sepmatic H400
Planetary Gear Winch
Line pull on bottom rope layer: 450 kN
Rope length: 80 m

Forcematic H100
Planetary Gear Winch
Line pull on all rope layers: 80 kN
Rope length: 60 alt: 80 m

Forcematic H150
Planetary Gear Winch
Line pull on all rope layers: 200 kN
Rope length: 60 m

Forcematic H200
Planetary Gear Winch
Line pull on all rope layers: 150 kN
Rope length: 60 m

Forcematic H400
Planetary Gear Winch
Line pull on all rope layers: 300 kN
Rope length: 80 m

Sepdurance H200 motors in
Planetary Gear Winch
Line pull on bottom rope layer: 200-240 kN
Rope length: 60 m

Sepdurance H300
Spur Gear Winch
Line pull on bottom rope layer: 300-350 kN
Rope length: 60 m

Sepdurance H200 motors out
Planetary Gear Winch
Line pull on bottom rope layer: 200-240 kN
Rope length: 60 m

Sepdurance H400
Planetary Gear Winch
Line pull on bottom rope layer: 450 kN
Rope length: 80 m
